## NOVEMBER OBSTACLE MAKEOVER

In the month of November, the Sun transits into the constellation of Scorpio. Scorpio is the Natural 8th house of the Zodiac and has impact on Sex, Transformation and Obstacles.

### PLANETS THAT IMPACT OBSTACLES

- Saturn - brings past life obstacles into your current life for you to experience and master
- Venus - is the Lord of the material plane and teaches you lessons about negotiating life with ease
- Jupiter - is the Lord of the spiritual plane and brings in new wisdom to handle your obstacles with ease

*"Life is about making choices. If you have made wrong choices you must correct them." - Dattatreya Siva Baba*

### MANTRAS TO FIX OBSTACLES

Planetary Mantra (Saturn): Om Sanecharaya Namaha

Spiritual Mantra: Om Gum Ganapataye Namaha

### GANESHA YANTRA

Lord Ganesha has the Divine ability to remove obstacles, even before you see them. Obstacle removing is a critical skillset in order to successfully complete anything you attempt.

## DECEMBER GOOD LUCK AND ANCESTRAL MAKEOVER

In the month of December, the Sun transits into the constellation of Sagittarius. Sagittarius is the Natural 9th house of the Zodiac and has impact on Father, Ancestors, Faith and Good Luck.

### PLANETS THAT IMPACT GOOD LUCK AND ANCESTORS

- Ketu - indicates past life and ancestral karma
- Saturn - as Lord of Karma who can deliver enormous positive merit and good luck to pull through from the toughest of situations
- Sun - is the indication of your father
- Jupiter - gives boons and expands good fortune

*"God is Faith, and the Devil is doubt. The Devil's whole endeavor is to kill your faith, not only in God, but also in positivity in general. God, or faith, is a principle of affirmation, whereas the Devil is the principle of negation."*

- Dr. Pillai

### MANTRAS TO FIX GOOD LUCK AND ANCESTRAL KARMA

Planetary Mantra (Ketu): Om Ketave Namaha

Spiritual Mantra: Om Gurave Namaha

### DAKSHINA MURTHY YANTRA

To increase your spirituality and good luck and fortune, it is the planet Jupiter that should be recognized. Dakshinamurthy is the Planet Jupiter personified and Lord Shiva in the form of a silent, benefic teacher.

Saturday	Failure	Professional	Rahu Kala	Best	Disease	Profit	Income	Comfort

**The Gowri Panchang (Division of Daytime Hours) helps guide you throughout the day based on Sunrise and Sunset times.** On each page of our Calendar, we have noted the approximate timings of each time division for that month. You will see that the times are listed as 1st through the 8th times. These correspond to the divisions in the above chart. Look up the quality of the time, such as Best, Income, Failure, etc. and use this to plan routine activities in your life.

- Profession** - Good for any activity related to profession like attending an interview, negotiations, corporate activities and signing agreements.
- Best** - Good for all activities.
- Income** - Good for any business or income generating activities, new ventures, opening a bank account, transactions and business communications.
- Rahu Kala** - All activities irrespective whether it is good or bad, should be avoided. Avoid discussions and travel.
- Disease** - Do not take medicines or even consult with a doctor during this time unless it is an emergency. This time is more related to health issues, but generally considered a less auspicious time for activities. This is a good time for repayment of loans.
- Failure** - Any endeavor, discussion, meetings, approaching persons, medical treatment, interviews will end in failure.
- Comfort** - Good for purchasing of things, taking medicine, beginning a medical treatment, travel, romantic affairs and establishing relationships.

**Note: One Muhurtha During the Day \* ((Sun set - Sun rise) / 8) Eg: (16:34-7.25) / 8 = 1:08:37 is a Muhurtha**

Please find approximate Sunrise/Sunset times for each week on the monthly calendar page

Thursday	Jupiter	Mars	Sun	Venus	Mercury	Moon	Saturn
Friday	Venus	Mercury	Moon	Saturn	Jupiter	Mars	Sun
Saturday	Saturn	Jupiter	Mars	Sun	Venus	Mercury	Moon

To calculate the Hora, Subtract (Sunset - Sunrise) on the day and divide by 12. The result will be the length of a hora time in that day. For the night horas, calculate the hours and minutes between sunset and sunrise of the following day, and then divide the difference by 12. This result will be the length of the hora during the night time. Example: June 30th Sunset is 19:13 and Sunrise is 05:49 = 13 hours and 24 minutes. If you divide this by 12 (13:24/12= 1 hour and 7 mins) 1:07 is the length of each hora during Day time.

Please find approximate Sunrise/Sunset times for each week on the monthly calendar page

## Tithi - Moon Phases

The New Moon occurs when the Moon is positioned exactly between the Sun and the Earth. From this position, the Moon begins to orbit the Earth, moving away from the Sun 12° per day. This 12 degrees of travel is known as a Tithi, or Moon Phase. Each Tithi reflects the Sun's light to the Earth in different amounts and thereby effecting our own consciousness. The Moon phases are our daily interaction with the eternal.

The lunar month is divided into two fortnights (Pakshas). The Pakshas are:

1. Waxing Phase- the bright half of the Moon, from the New Moon to the Full Moon. 15 tithis belong to the waxing cycle of the Moon.
2. Waning Phase- the dark half of the Moon, from the Full Moon to the New Moon. 15 tithis belong to the waning cycle of the Moon.

The tithis are represented by numbers from 1st Phase to 15th Phase (the Full Moon). After the 15th day of the Lunar cycle, the next tithi is known as the number 1 again, then 2, 3, 4 and onwards to 14. The 30th day, the darkest night of the lunar month is known as the New Moon.
